### Information regarding the 100 question final exam

During our 100 question multiple choice examination, you may refer to the instructional material supplied to you through the course. A passing score on this exam is 60 percent or better. You will be given 2 hours and 30 minutes to complete this examination. Final examinations are either administered at one of our school locations during class time or by designated proctor. If the student decides to take the examination in the firms environment, the student should know that they are administered every class session by an employee of the school in an area separate from the classroom. Currently, Department of Real Estate guidelines dictate that you must wait a minimum of eighteen (18) days from the date of receipt of materials before taking the final exam. Upon passing the final exam you will receive a certificate of completion issued by the school. If you pass this examination the transcript of completion will be mailed to the student within 72 hours of grading. Reading the provided text will obviously prove useful in completing this examination, so make use of the textbook that is provided to you!

If you decide to take the 100 question examination through our online system you are also welcome to do so. If you are going to take it online you will not be able to cut, copy, or print during the examination. The system will score your examination for you and store your certificate in your profile assuming you have passed.

In the event the student fails the final exam, the student may retake the test until they pass for no additional cost. However, in the event of a failed examination the student must wait another eighteen (18) days from the date they last took the examination before they are allowed to retake. The objective here is to learn and retain as much about the subject matter as possible.

Private providers of pre-license statutory real estate courses must obtain course approval from the Department of Real Estate (DRE). As part of the approval process, the DRE reviews the course materials only. The DRE does not qualify the school or course provider. In addition, there is no regulatory oversight of private pre-license course providers who offer courses or programs costing \$500 or less. For courses or programs over \$500, qualification by the Bureau for Private Postsecondary and Vocational Education is required, in addition to DRE course approval. As a result, if a course provider offering a course costing \$500 or less fails to deliver the educational course/program as represented, a student's monetary remedy is to seek redress in Small Claims Court. Students are cautioned to fully understand the education course/program offered by the provider before enrolling or registering. A list of pre-license statutory courses approved by the DRE can be found on the DRE Web site at [www.dre.ca.gov](http://www.dre.ca.gov) under DRE Records.
